Exciting news: we're only 18 weeks away from a special year for us -- we held our first developer conference, Googleplex. To celebrate our 10th anniversary, we're hosting I/O in our backyard at the Shoreline from May 18th - 20th. We'll have 3 full days of content, code labs, and more. If you can't make it, watch I/O Live and through an I/O Extended event **#io16** and +GoogleDevelopers in the coming weeks.
